## Your Experts in Precious Metals Technology since 1851

Labware made of Precious Metals

XRF Equipment made of PtAu5

Custom made Semifinished Products

Recycling

### Labware made of Precious Metals

- Crucibles, dishes and lids for various analytical methods
- Special dishes, boats, triangles and all types of solid electrodes or gauze electrodes
- Accessories like tongs with platinum shoes, plastic formers, tweezers and spatulas

### XRF Equipment made of PtAu5

- Crucibles and casting dishes for the preparation of samples for XRF
- For all major fusion devices like Autofluxer, Claisse, Eagen 2, Herzog, Leco, PerIX, Phoenix, Schoeps or Vulcan
- Melting moulds for the preparation of fusion beads in a muffle furnace
- PtAu5-DPH for extreme conditions

### Custom made Semifinished Products

- Wires, rods and wire-wool diameter 0.00004" to 2.4"
- Sheets, foils and endless strips thickness 0.0004" to 0.8"
- Discs and perforated discs
- Seamless tubes and capillaries
- Thermocouple thimbles
- Granules and powder

### Platinum Labware Recycling

- Recycling of used precious metal labware or other precious metal products
- Trading service for buying and selling of precious metals

How can we assist?

Your response to these questions will help Heraeus to provide a detailed answer:

1) Which laboratory products and equipment do you use currently / are you interested in?

Wire, sheet, tubing       Crucibles, dishes \_\_\_\_\_ (Please indicate your product type)       Specialty fabrication  
 Electrodes       XRF Equipment \_\_\_\_\_ (Please indicate your product type)       other

2) The products are made of the following precious metal:

Platinum       Platinum/Rhodium 90/10       Gold       DPH (Dispersion hardened)  
 Platinum/Gold 95/5       Platinum/Iridium \_\_\_\_\_ (Please indicate ratio of Pt/Ir)       Iridium       other

3) What is your working temperature? \_\_\_\_\_ °C

4) Do you have any questions related to precious metals?

5) Are you returning used precious metal labware / precious metal scrap?

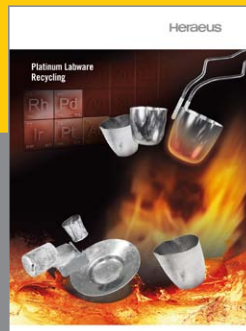

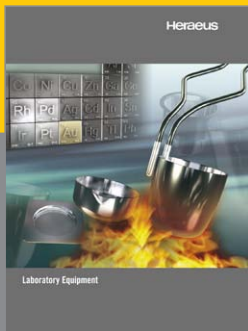

Yes, quantity: \_\_\_\_\_ g       No

6) Would you prefer to be contacted by:

Phone       E-mail

See next page if you would like to order further labware information material.

## Catalogues and other Materials

If you are interested in our catalogues, please note the number of copies you would like:

- |                                 | No. of pieces |
|---------------------------------|---------------|
| ■ Laboratory Equipment          | _____         |
| ■ Dispersion Hardened Materials | _____         |
| ■ Platinum Labware Recycling    | _____         |
| ■ Polishing Kit                 | _____         |

Furthermore, we would like to offer our Platinum Corrosion Clock and our Poster of the Periodic Table of the Elements.

- |          | No. of pieces |
|----------|---------------|
| ■ Poster | _____         |
| ■ Clock  | _____         |
| ■ CD     | _____         |
